

LIFT WITH EASE

Efficient and ergonomic
material handling

Article no.: Bagging feet

Sack Suction Heads

Height (mm)	107, 73, 89
Weight (kg)	1.5, 2.5, 5.5
Maximum capacity (kg)	50
Maximum capacity airtight (kg)	50
Maximum capacity porous (kg)	50
Type of lifting object	Luggage, sack
Gripping technique	Vacuum
Length (mm)	250, 271, 415
Configuration height (mm)	-63, -79, -97

Lifts All's suction heads are ideal for lifting porous or dense sacks and baggage. Compact soil bags, rice sacks and sand bags can be easily lifted and moved from pallet to pallet, for example. Suction heads are also popular at airports and freight terminals for lifting bags and baggage.

For the most porous bags, such as mail bags or other loosely packed bags, we recommend our [mechanical Sack Gripper](#) instead.
