

# LIFT WITH EASE

Efficient and ergonomic  
material handling

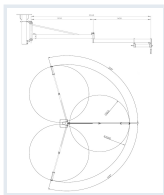

Item no.: FlexiCrane 3m

# FlexiCrane - (3) m - [65] kg

Length (m)	3
Maximum capacity (kg)	65
Weight (kg)	58
Type of crane	Articulated jib cranes
Other characteristics	Stainless steel (SS)
Height (mm)	786
Configuration height (mm)	-1032

FlexiCrane 3 meter is a longer version of our classic two meter Flexicrane. The extended length allows it to lift in a larger radius. Because the FlexiCrane 3 meter is connected to the side of the pillar it has a 210 degree rotation, whereas the FlexiCrane 2 meter (that is connected to the top of the pillar) has infinite rotation. FlexiCrane 3 meter is also a bit heavier and more robust than the 2 meter FlexiCrane.

## Agile articulated crane

Just like our classic two meter crane, the FlexiCrane 3 meter is a flexible articulated jib crane, that can be complemented with the compressed air cylinder Bal-Trol and a lifting tool to make up a complete lifting system. Just contact our skilled sales engineers and they will make a suggestion according to your facilities and what you need to lift.

## Articulated jib crane with different mountings

The FlexiCrane 3 meter is best suited for permanent installation, for example on a pillar or wall. The crane suits all of our standard pillars.

## Versions

	Article number	Length (m)	Maximum capacity (kg)	Weight (kg)	Type of crane	Other characteristics	Height (mm)	Configuration height (mm)	Height from the floor (mm)
	95-10289-SS	3	65		Articulated Jib Crane	Stainless Steel	786	1032	786
	95-10289-RAL	3	65	58	Articulated Jib Crane		786	1032	786
	95-10289	3	65	58	Articulated Jib Crane		786	1032	786
