

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: Z-Gripper

Z-Gripper

Weight (kg)	4.5, 5
Maximum capacity (kg)	25, 65
Gripping technique	Vacuum
Type of lifting object	Can, Cardboard box, Box, Pallet, sack, Barrel
Industry	Battery industry, Beverage industry, Pharmaceutical industry, Food industry, Metal industry, Distribution and warehousing, Automotive industry, Wood and furniture industry, Ventilation industry, Engineering industry
Optional control	Balancing
Other characteristics	Basic lower bracket
Height (mm)	351, 368
Configuration height (mm)	-344, -360

The Z-Gripper is an all-purpose gripper designed to handle airtight drums, pails, boxes, and pallets. But it's also well-suited for other hard objects with suitable gripping surfaces for a Vacuum gripper. The Z-yoke features a quick-release coupling that lets you easily and quickly swap out the vacuum cup or attach a hook, depending on what you need to lift.

The vacuum gripper is ergonomically designed to resemble manual handling, but without the heavy weight. This means that the lifting tool puts loads of up to 60 kg in a "weightless" state, allowing the operator to smoothly guide and control the load up and down with their hands. This makes handling barrels or other loads quick and highly precise. The operator avoids heavy and awkward lifting and can be sure that the lift can handle the specified weight. The Z-yoke is small and flexible, which means it can be used in confined spaces.

Versions

	Article number	Weight (kg)	Maximum capacity (kg)	Gripping technique	Type of lifting object	Industry	Optional control	Other characteristics	Height (mm)	Configuration height (mm)
	92-10034	5	65	Vacuum			Balancing	Basic Bottom	351	344
	92-10004	4-5	25	Vacuum			Balancing		368	360
