

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 91-10026

Slim-Line Sensi Touch

Weight (kg)	2
Gripping technique	Hook
Height (mm)	442

Hook lift with up-and-down control. It is compact and fits comfortably in most hands—regardless of size. The hook lift has the same load capacity and airflow rate as the Original Sensi-Touch. It features a power-assist mode when lowering, making it easier to lower an empty hook when no load is attached. This is recommended for heavy loads of 130 kg or more, but can be used for all weights.
