

LIFT WITH EASE

Efficient and ergonomic
material handling

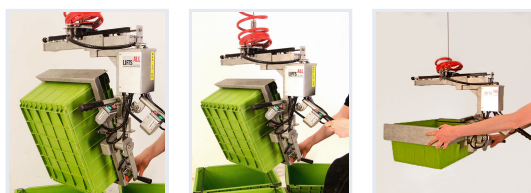

Item No.: 89-10002

Butter box gripper 89-10002

Type of lifting object	Box, Food
Weight (kg)	24
Maximum capacity (kg)	30
Serial number	4438
Function	Rotation
Other characteristics	Stainless steel (SS)
Gripping technique	Mechanical
Optional control	Balancing

The butter box gripper lifts and aids in emptying butter out of a box. The gripper grips and lifts the box, which can then be manually rotated 180°. Designed and built for use in a cleanroom, the essential parts of this gripper are constructed in stainless steel making it easy to clean.

Move the load up, down and around with your hands directly on the gripper or the load. The gripper will feel weightless and there are no manoeuvring buttons to worry about. Working becomes faster and freer but with precision. With the box gripper, you can avoid awkward twisting and heavy lifting. Shoulders, knees and backs are spared from injuries and over-loading.
