Weight (kg)	7
Maximum capacity (kg)	30
Serial number	4780
Optional control	PSH
Gripping technique	Station wagon

Customized combi-grippers for sacks and cartons

This combination gripper is a specially-designed tool for lifting fabric sacks and carton boxes of different sizes that weigh up to 30 kg. The gripper functions as a mechanical sack gripper, pinching and lifting sacks from an upright position, from pallets to conveyor belt. The gripper also functions as a vacuum tool to lift carton boxes.

Easy to adapt the lifting tool

The applications take seconds to swap around and the operator can get right back on to work! We have many vacuum and mechanical application designs to choose from. And, if you need to lift a different type of product in the future, just order a new application for the same gripper.
