Efficient and ergonomic
material handling

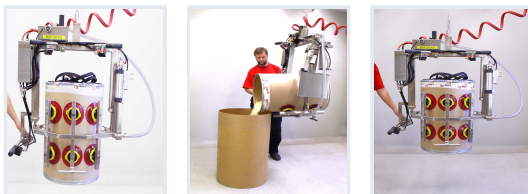

Item No.: 2988

F and B drum gripper 2988

Type of lifting object	Food, Thin
Weight (kg)	51
Maximum capacity (kg)	100
Serial number	2988
Function	Rotation
Other characteristics	Stainless steel (SS)
Gripping technique	Vacuum
Optional control	PSH

A lifting tool for drums

This food and beverage gripper is the solution for lifting heavy cardboard drums of up to 100 kg. It utilises pneumatic power through the suction cups to grip the side of the drum. The gripper is ergonomically-designed and has several handles at different levels so the user can avoid monotonous bending, which can result in repetitive strain injury.

Suitable for clean room environments

The F&B Drum Gripper is made out of stainless steel for hygienic purposes. Stainless steel is easy to keep perfectly clean, which is a necessity in the F&B industry. The gripper can also rotate the load 180° - a very useful trick when you need to empty 100 kg of grain from a barrel.
