

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 4371

Container gripper 4371

Type of lifting object	Container
Weight (kg)	29
Maximum capacity (kg)	35
Serial number	4371
Function	Manual rotation
Other characteristics	Stainless steel (SS)
Gripping technique	Vacuum
Optional control	PSH

Lifting tool for containers

This gripper is a customised lifting tool for lifting and manoeuvring plastic containers of up to 35 kg. The vacuum gripper quickly fastens to the side of the container with its four suction cups. The container can then be moved up and down without the operator needing to do any heavy lifting or awkward twisting.

To empty the container, the operator just has to turn the wheel on the gripper. The gripper can rotate a load up to 180°. All the metal parts of the gripper are made from stainless steel and are suitable for use in clean room environments where machines and tools need to be cleaned on a regular basis.
