

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 3658

Container gripper 3658

Type of lifting object	Container
Weight (kg)	3
Serial number	3658
Optional control	NA
Gripping technique	Hook

Lifting containers has never been easier with specially-designed hooks by Lifts All! Just place the hook on the container's handle and pull up on the SLS sleeve to lift. Then move to a pallet to unload. Lifts All's hook has been designed to keep the container securely attached so the user is able to quickly and safely move about. This lifting tool has a convenient and comfortable handle with which the user steers the load and gripper, lifting and setting down the load effortlessly. Instead of pressing buttons, you use the black handle sleeve on the SLS. Pull up the sleeve to move the gripper up and down to move down. Using the SLS mirrors all the manoeuvres of manual lifting, except you don't feel the weight of the load.
