

LIFT WITH EASE

Efficient and ergonomic
material handling

Jib crane XS

Length (m)	2, 2.5, 3, 3.5, 4
Maximum capacity (kg)	100, 125, 80
Weight (kg)	41.74, 44, 56, 58.54

Jib crane is a compact and versatile Jib crane designed for light-duty lifting in settings such as warehouses, workshops, and industrial environments. The crane has a maximum capacity up to 125 kg and is available in lengths ranging from 2 meters to 4 meters, making it flexible for a variety of workspaces and tasks.

The lightweight aluminum construction makes the crane easy to operate while ensuring high precision when moving goods and materials. Jib crane contributes to a more ergonomic and safe work environment by reducing the need for manual lifting and heavy loads for staff.

Jib crane is ideal for work sites where smooth, fast, and frequent lifting is required, and is a cost-effective solution for light material handling.

One of the major advantages of this model is that it is easy to install, allowing it to be put into service quickly. The crane can be mounted either as a column-mounted jib crane or a wall-mounted jib crane, depending on the conditions of the premises and the layout of the workstation. A wall-mounted solution frees up floor space, while a column-mounted Jib crane greater freedom of movement and a larger swing radius.

Add pillar, Bal-Trol, and lifting tools to create a complete lifting solution.

Versions

Article number	Length (m)	Maximum capacity (kg)	Weight (kg)
 95-10328	4	80	58-54
 95-10327	3-5	100	56
 95-10326	3	125	56
 95-10325	2-5	125	44
 95-10324	2	125	41-74
